

# Systematic uncertainty

Jaeyong Lee

# Systematic Uncertainty for Branching Fraction Measurement

	$\eta\Lambda\pi$	$pK\pi$
$\eta$ selection eff.	3%	-
$\Lambda$ selection eff.	2.8%	-
Proton PID eff.	0.36%	0.36%
Kaon PID eff.	-	0.95%
Pion PID eff.	1.03%	0.96%
Number of bins over Dalitz plane	ongoing	ongoing
Fitting sys. errors	ongoing	ongoing
Tracking eff.	1.05%	1.05%
MC statistics		
PDG BR Values		

# Systematic Uncertainty for Mass and Width

	$\Lambda(1670)$	$\Sigma(1385)^+$
Partial width parameter	ongoing	ongoing
Mass scale	ongoing	ongoing
Interference (non-resonant and resonant modes)	ongoing	ongoing
