

# Weekly meeting

SNU

BongHo Kim

# TOF time resolution

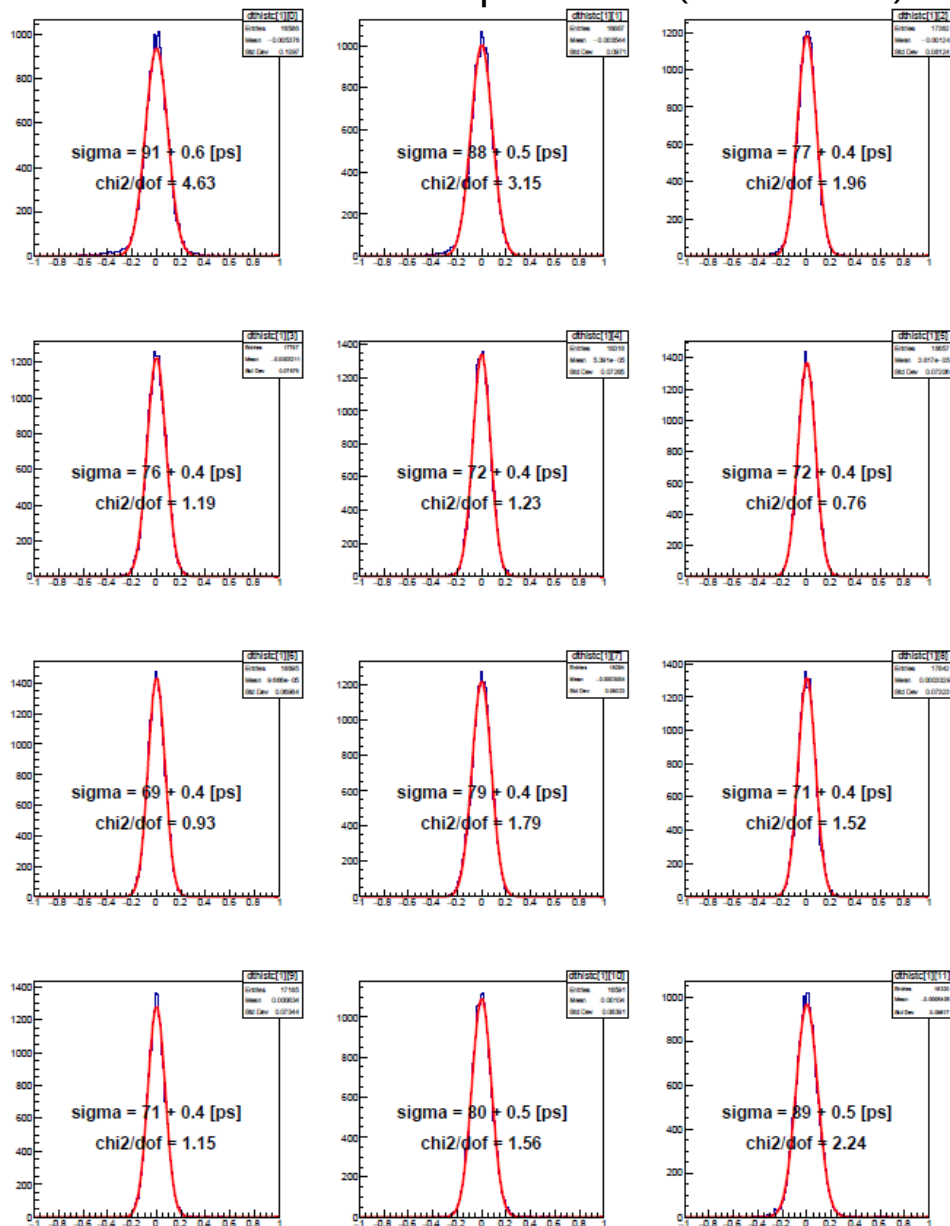

- linear inverse interpolation
- Bessel's inverse interpolation

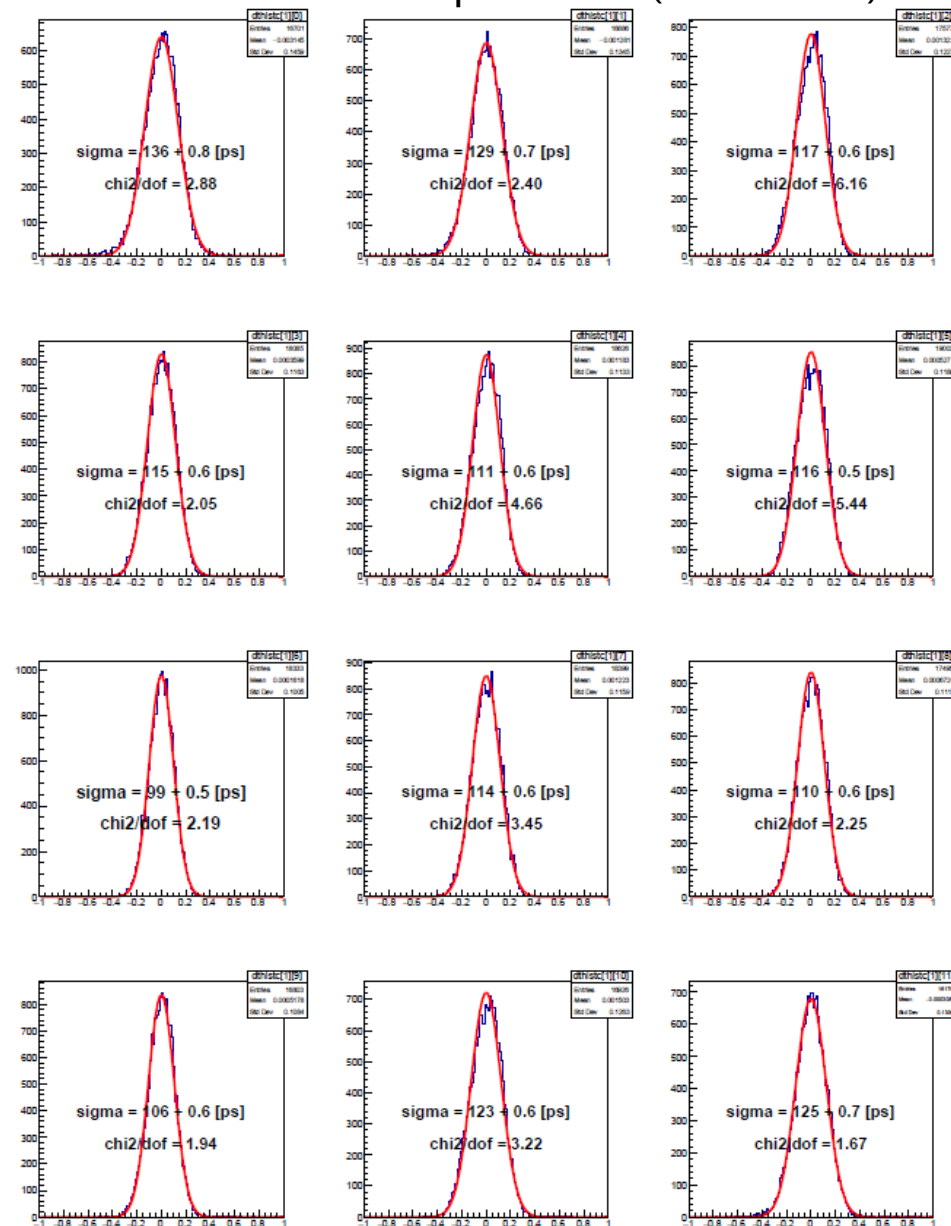

Quite clear to see the improvement by the fitting time determination method.

# Delta T distribution for Bar0~11 (left top->bottom right)

## Bessel's inverse interpolation (10~30cm)

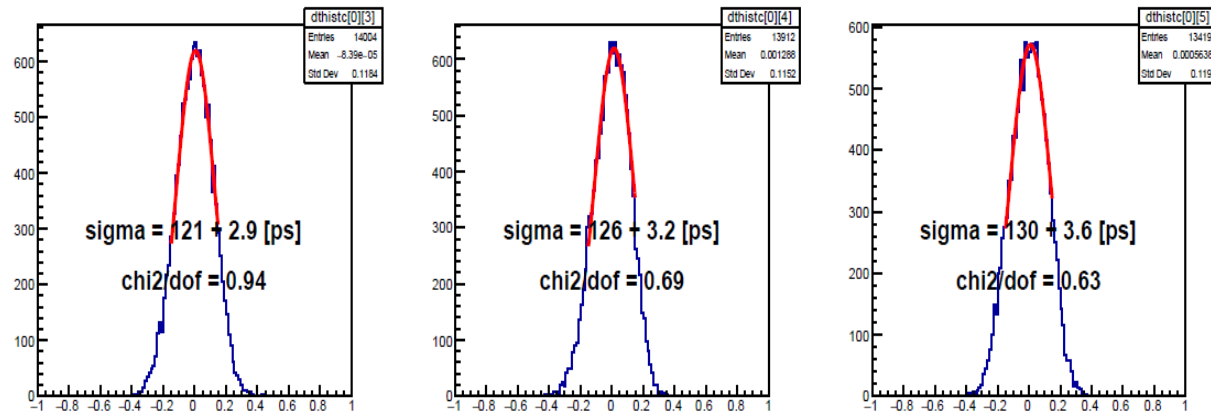

## Linear inverse interpolation (10~30cm)

# Comparison (slide at last meeting)

Linear inverse interpolation

Bessel's inverse interpolation
