

- To design devices, elements
- Start with the built-in tutorial

Solidworks: Practice

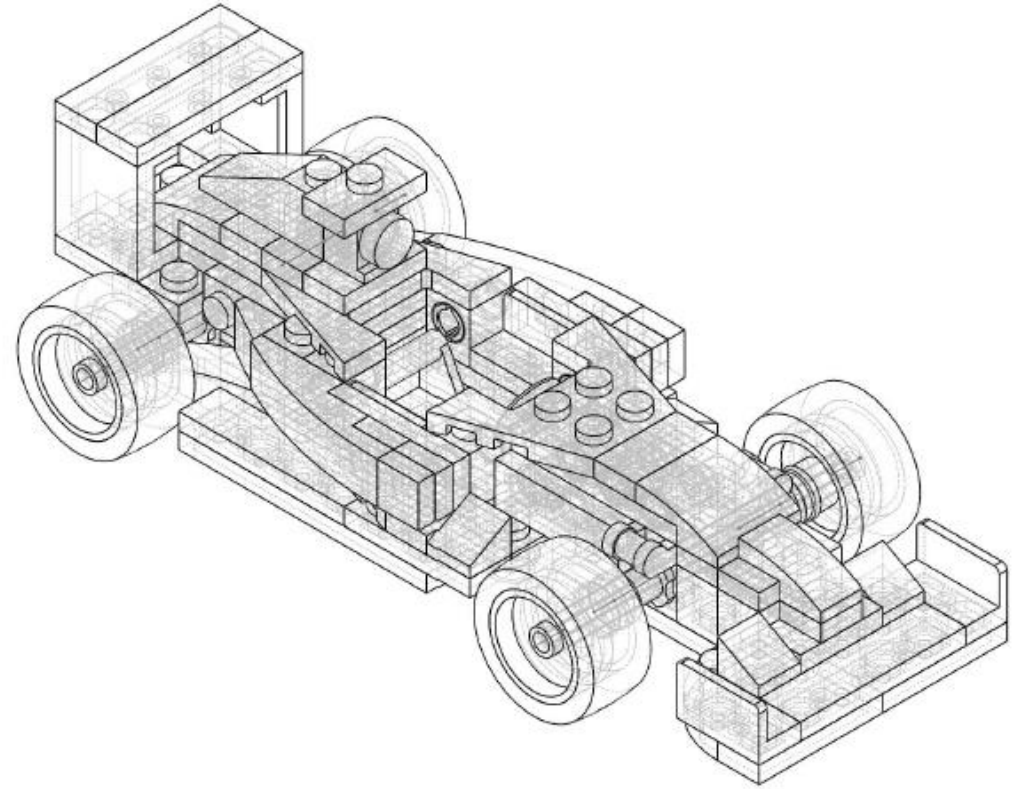

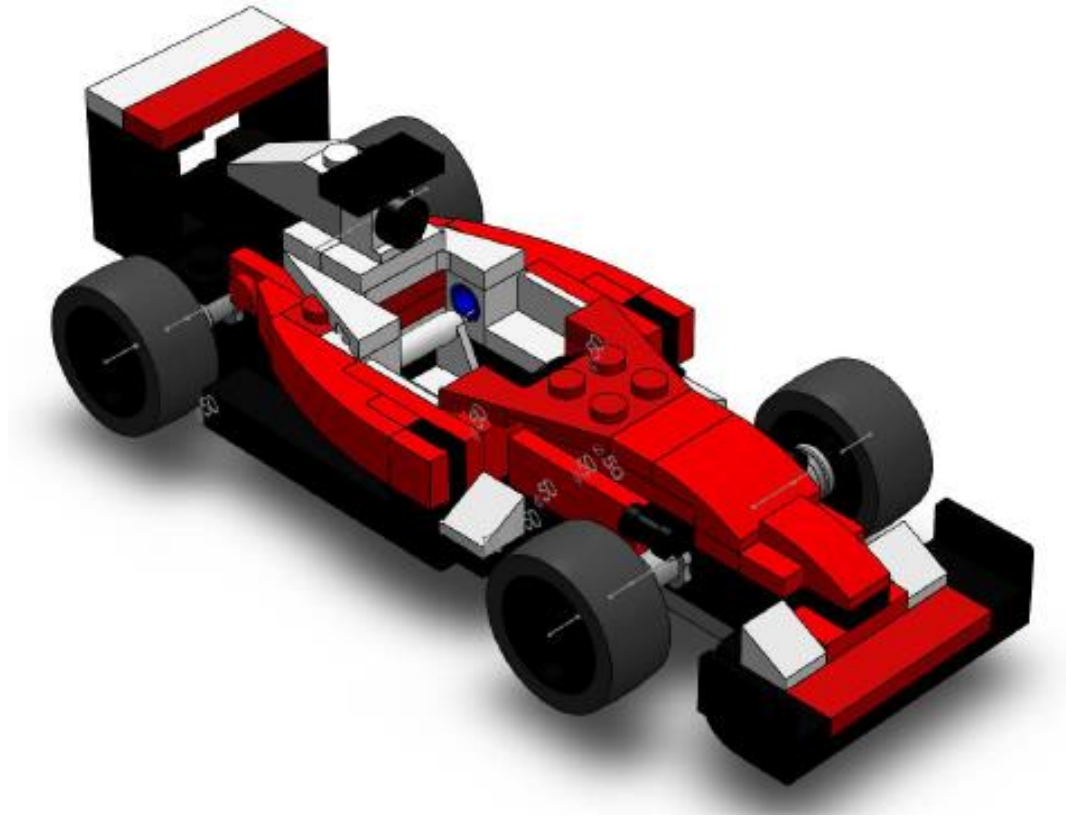

- LEGO SPEED CHAMPION 75879
- Scuderia Ferrari SF16-H

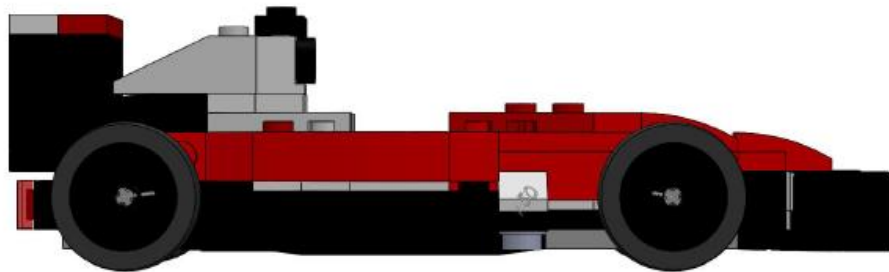

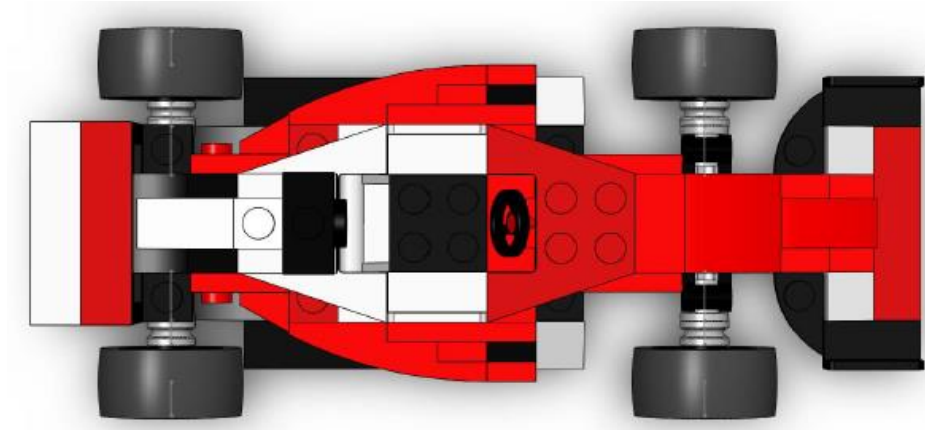

Solidworks: Practice

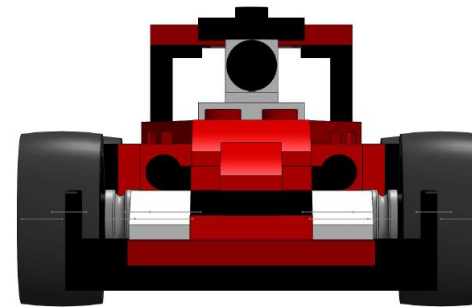

Solidworks: Practice

Solidworks: Practice

- Time: ~ 3 days
- The tolerance was taken into an account.
- Not exactly same as the real model

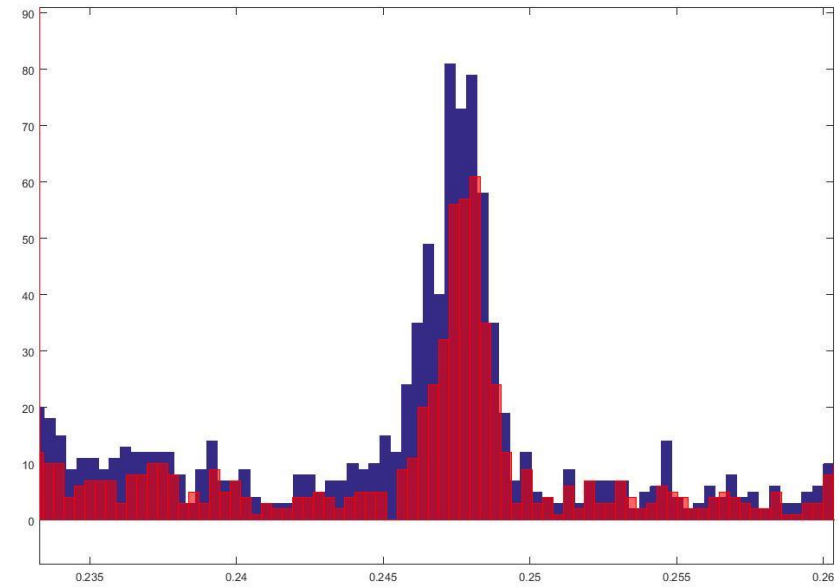

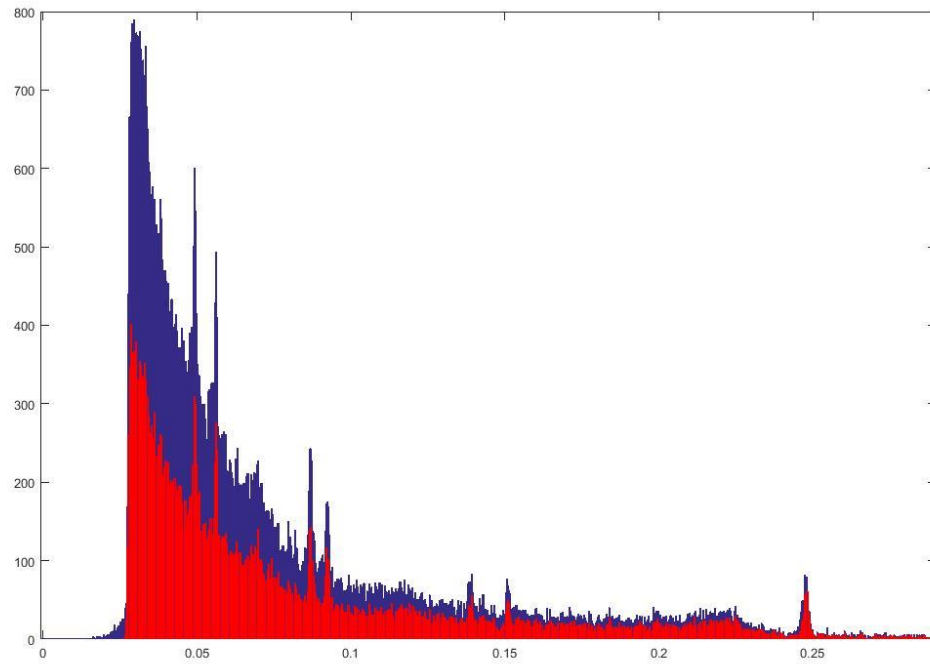

New study: Matlab

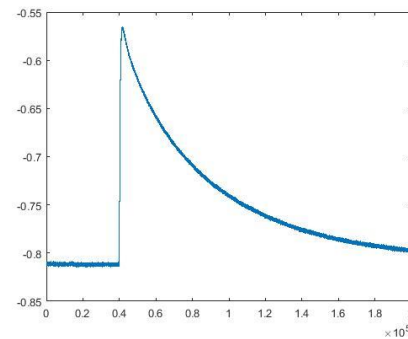

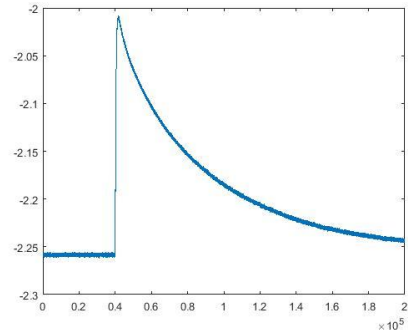

- Mainly used here(KT1) rather than others(root, ...)
- For signal analysis

New study: Matlab

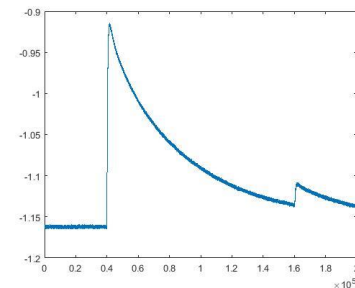

New study: Matlab
