

Weekly report

SNU

BongHo Kim

Proton line test setup

- Setup will be prepared soon.
- Pump will be tested soon.
- This setup will be installed outside of GBAR zone.

Timestamp issue

Time synchronization btw TOF &MMC

- Discussion with P.Crivelli → He suggested to talk with Gianluca (Ph.D student) to decide.
- I will mail to this Bertrand and Gianluca for discussion.

Time stamp from CERN GPS

- I will try to contact GPS guys to check required action.
- We can use 10MHz clock time stamp from this.

(It can be enough even for TOF &MMC synchronization with the way from Jaison)
